What clinicians say about our courses

-

'In our view all surgeons should come and see the experts work at Pelican... The bottom line is they'll save lives as a result.' - Professor Alex Deutsch, Chair of the Yanir Foundation for the Advancement of Colorectal Surgery in Israel

-

'The whole masterclass was excellent. All was very relevant and interesting. Well organised and well worth attending'

-

'We are continuing to feel the benefits and refer back to the course' - clinical oncologist

-

'It changed the way I practice' - radiologist

-

'TME has transformed my whole surgical life' – surgeon

-

'I think this really does impact on cancer outcomes' - clinical oncologist

-

'Very helpful to see the surgery' - radiologist

-

'Excellent and informative' - nurse

-

'The only opportunity our team has had to attend anything as a team' – nurse

-

'An excellent model for disease-specific MDT course' - radiologist

-

'Fantastic course – good well-thought-out overview of colorectal cancer and current debates'

-

'Very good speakers who have increased my knowledge in a very interesting, enjoyable and informative way'

-

'Excellent, relevant course'

-

'Enjoyable, well-constructed two days with excellent speakers. Networking extremely valuable'
