

**Pelican Cancer Foundation** (Pelican stands for Pelvic Liver Cancer), is based in Basingstoke and has been seed funding colorectal and prostate cancer research for 25 years. Our ethos is helping clinicians make incremental changes in practice that help their patients live better lives for longer. The charity has run four national programmes for colorectal multidisciplinary teams and TIPTOP is our first national urology programme.

TIPTOP is funded with charity funds, industry sponsorship and charitable donations including a £30,000 grant thanks to a bowel cancer patient).

**This meeting has been part sponsored by Ferring Pharmaceuticals' Ipsen Lts and Aspire Pharma.**

**Greater Manchester Cancer** is the organisation coordinating cancer care across Greater Manchester and Eastern Cheshire, from prevention, screening, primary care through to secondary care and hospice/palliative care. This has led to the formation of a dedicated regional cancer plan (2015-20) which is now in the delivery phase.

## 6 CPD credits awarded by BAUS

**Certificates will be emailed to everyone  
after the workshop**
