

Dear doctor,

The above patient has agreed to participate in a multicentre study involving patients with low rectal cancer. The patient's treatment will not be altered in any way, as this is purely an observational study. We will, during the course of their treatment, be sending them postal questionnaires to fill out, but other than this they will continue to be treated as normal.

Please do not hesitate to contact our Trial Coordinator at the Royal Marsden Hospital, Lisa Scerri on 0208 915 6067, email: lisa.scerri@rmh.nhs.uk if there are any questions that you or your patient may have,

Yours faithfully,
